Mr. Malot commented that the application would not be used for driveway nonconformance. He stated that the nonconforming Use Certification Application was primarily for buildings and structures. Chairman Barlow commented that a few situations involving nonconformance currently exist in Liberty Township. Roadmaster Report – Roadmaster Barlow reported that the crew drove 1,056 miles, used 76.5 gallons of gasoline, 0 gallons of On-Road Diesel, and 48.6 gallons of Off-Road Diesel in August. He stated that the base repair on McGlaughlin Road was completed and he distributed costs for several options for improvements to McGlaughlin Road. He explained that if the lower cost option of overlay was chosen over reclaiming, then funds would be available to include overlaying Sanders Road. He projected that after the overlay, the roads wouldn't need additional work for 15-20 years. The Township would be looking at spending \$152,245 to complete the two roads for 2022. Friends Creek Road had two major flooding incidents. The Township had to purchase 65 tons of stones to repair the flooding area. It cost the Township approximately \$2000 labor and materials. Safety is a concern for the residents that live beyond the crossing at Friends Creek Road. When flooding occurs, they can't get out and Fire and emergency vehicles can't get in. The estimated cost to put a bridge along the area that floods on Friends Creek Road is \$500,000. Tree canopy opening will begin on Monday October 11, 2021 in coordination with Hamiltonban Township. The Roadmaster also reported that three calls were received after hours in September for trees down.
